TRUST FIRST-HAND TESTING AND CODE KNOWLEDGE

UL

UL Evaluation Reports help get your products to market faster, offering a single trusted source for complete code compliance. When combined with your UL Safety Certification, you can streamline market acceptance in a fraction of the time normally required to demonstrate compliance with the family of International Codes.
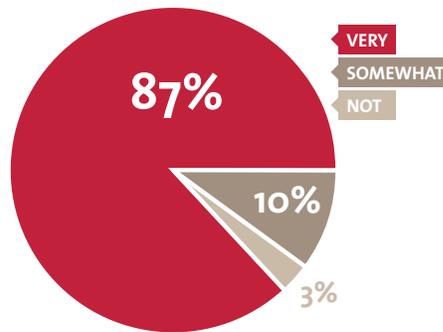

Key Benefits to Manufacturers

- Expand your market with ready acceptance by code authorities, architects, designers and contractors

- Expedited turnaround time through one point of contact

- No annual report renewals required saving you additional time and money

- Reduced number of factory inspections compared to other Evaluation Report providers

- Leverage UL's reputation for rigorous testing, certification and knowledge of model code development

- Have your products listed in UL's **Online Certifications Directory**, **Evaluation Reports Directory** and in UL's exclusive **Code Correlation Database**
